

UltraCool™

UltraCool™ is ideal for any outdoor application

Custom engineered solutions • Commercial grade, stainless steel components
Evaporative cooling effect • Automated controls • Remote monitoring capabilities
High Pressure up to 1000psi • Quality performance and reliability • 2 year warranty

**A Reputation for Creating Value
Through Quality Equipment**

SYSTEM COMPONENTS

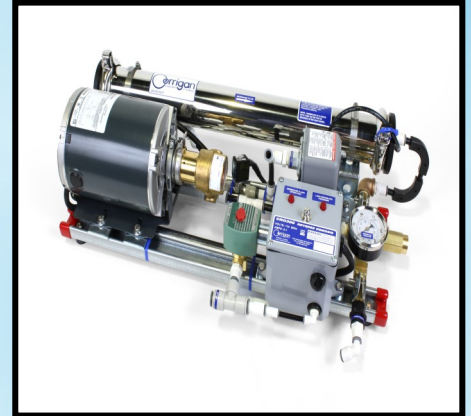

Misting Assembly

Stainless steel mist bar, tees and clamps. Up to 1000psi misting nozzle with adjustable system pressure. Flexible nozzle layout and swivel tees.

Motor and Pump Assembly

High quality CAT brand Triplex pump and robust 115V or 220V motor. Safe, non-electric air actuated on/off switch. Low feedwater pressure lock out with manual reset and power indicator lights.

Filtration

Standard 10" 0.45 micron sediment filter or, depending on water quality, HyperSoft™ Reverse Osmosis System.

ENGINEERING

Corrigan offers custom design services for non standard installations and applications such as aesthetic fogging, humidification and propagation. Our engineering team will customize equipment to meet your specific needs.

WARRANTY

Corrigan Corporation of America warrants each system, manufactured and sold by them to be free from defects in material and workmanship for a period of two years from the time of shipment (first year covers parts and labor, second year covers parts only).

See full warranty on our website.
