

# Ultramist™

Mist Head Turns  
Front to Back

Easily Slides  
On and Off

Corrigan's produce misting provides a thin, dew-like barrier of moisture, resulting in:

- Longer shelf life and increased profits
- Greater variety and larger display opportunities
- Higher chlorophyll and vitamin content (independently proven)
- A fresh appearance for customers who buy with their eyes
- Produce that makes your store the destination of choice
- A smart, focused use of water
- Available with our Low Flow Nozzles for energy and water savings

# Corrigan

A Reputation for Creating Value  
Through Quality Equipment Since 1979

# UltraMist™ is ideal for produce and any other application that requires misting.

- Smallest profile and flexible mounting in all cases
- All nozzle spray patterns
- Optional 360° pivoting head
- Strong schedule 80 pipe
- Available in black or white
- So innovative, it's patented
- Fastest install and easy maintenance
- Most versatile system for resets
- Best industry warranty
- Lifetime guarantee on the mist bar and nozzle shut off

## UltraMist™

A misting system, simple to use and maintain, is also easy to order!

Determine the length, color and proceed to step one.

Video: How to Order

### OPTIONAL TriOBreeze™

Corrigan's TriOBreeze is a natural, residue-free misting disinfection system. It is chemical free, with no maintenance.

- Proven Sanitizing System
- Turn Key Operation

### STEP ONE | Select Misting Filtration

#### PumpPak Filtration

Select when water hardness is low. Standard one-micron filter removes sediment that would otherwise clog nozzles and solenoids.

#### CRO300 Reverse Osmosis

Select when scale buildup on cases is a concern. CRO300 removes minerals and uses a unique membrane flush for longer service life.

### STEP TWO | Select Misting Controller

#### ACP Controller

Select when all that's needed is timer control to turn misting on and off automatically. No drip—Instant On/Instant Off operation.

#### Que Audio Marketing™

Select when audio marketing is desired. Stereo sounds provided by Corrigan or download audio to the flash card memory. You can easily change messages for sales, seasonal, specials... It's as **vast** as your imagination.

### STEP THREE | Select UltraMist Nozzle Patterns

#### 80° Hollow Cone

Select this nozzle if misting is installed in canopy of produce case. Typically used with the fan style nozzle in an alternating fashion.

#### Fan Style

Select this nozzle if misting along the back of produce case to avoid overspray on mirrors. Also used for narrow product displays.

#### 80° Low Flow Fogging Hollow Cone

Select this nozzle, with the lowest flow in the industry, for water and energy savings.

#### 110° Hollow Cone

Select this nozzle for under-shelf installations and when product is close to mist bar.
